

Vikings Windup Grid Season With Impressive 20 to 6 Victory

Harbor Rams Never In The Game

The Grayling High Vikings rang up a 20 to 6 victory over the Harbor Springs Rams last Friday afternoon to close the 1950 grid season. Every boy on the Viking squad seemed to be at the peak of his playing ability as the line opened wide holes in the Rams forward wall and the Viking backs just couldn't be knocked off their feet.

The game was played on a flooded field which undoubtedly held the score down and kept the game from being much more one-sided. Harbor employed an 8 man line as the wet ball kept the Grayling offense on the ground. The Viking offense solved this problem by out charging the Ram forward wall and keeping them on

their heels and off balance all afternoon.

Viking fullback Bill Worden playing his last game led the Grayling attack by scoring all three of the locals touchdowns. Senior seniors playing their final scholastic football were John Kolka, quarterback; Jim McClain, halfback; Ellory Horning, Lee Nolan and Bob Sunday in the line. Kolka and McClain turned in good games while Horning added to his chances of being picked all-conference by seeming to be everywhere on defense and ripping through the Harbor line for numerous tackles and laying down some beautiful blocks on offense. Nolan and Sunday seemed to be at their roughest as they took the heart out of the Ram ball carriers with shattering tackles.

Grayling gained 303 yards to the Rams' 97. Attempting only 6 passes, Grayling completed 1 and had none intercepted. Harbor threw 15 passes, completed 5, while 1 was intercepted. They made 67 yards on their passing attack, while Grayling garnered only 32 yards from their passing. Worden gained 174 yards for a 10 1/2 yard gain per try with McClain adding 12 yards.

Little George Kessler finishing his first and last year for the Vikings, giving the team valuable support by being willing to learn any position where he was needed. During the course of the season he played at least in four different positions.

Kiwanis Club Notes

L. W. Hyde, who recently moved to Grayling and is associated with activities at Camp AuSable and handling pastoral duties at Mio and Gaylord was the speaker at the regular weekly meeting of the Kiwanis Club of Grayling held at the Lone Pine Inn.

Mr. Hyde who is a graduate of Emmanuel College, Berrien Springs, spoke to the club on Camp AuSable located just outside of Grayling on School Section Lake. He traced the development of the camp and told the number of buildings located there now and what plans call for in the future.

For the benefit of the Club members, Mr. Hyde traced the day of the summer camper at Camp AuSable. Nearly 500 went through the camp this year, he stated and pointed out that the Seventh Day Adventists had offered the government the use of the camp for evacuees in case of an emergency.

The National Guard headquarters said it had been in contact with Gen. Moran since the close of the national meeting but that he had no comment on the subject "for publication."

"No Policy" Says Engel

The Administration has no foreign policy and never did have," said Congressman Albert Engel Monday noon speaking before a group of Crawford County Republicans at a luncheon at the Lone Pine Inn.

Congressman Engel making a speaking tour for the Republican State Central Committee in the interest of the Republican slate seeking election to state offices in next Tuesday's elections said that the international picture and the results of the election in Michigan are tied together so closely that one may affect the other.

About 25 people gathered to here the veteran congressman from Michigan talk. The meeting was presided over by Crawford County Republican Chairman Ray F. Clement and among those attending were the members of the Republican ticket for county offices including Charles E. Moore, Archie Howse, Leo Lovely, Fred Niederer, William Golnick, Dr. Stanley A. Stealy and Alfred J. Sorenson.

Engel scored the present administration in Washington for what he termed "continued fumbling" and "flipping" on nearly every issue that comes up. He urged those present to work and get out the vote to put a halt to this continued situation.

He also told those present some of the things which he observed while traveling in Europe and Asia as a member of a House Investigating Committee. He related also his experiences during 42 days which he spent at Bikini atoll during the atomic bomb tests.

Any Reason Why Not?

Next Tuesday is General Election Day in Michigan. This is the day on which the free citizens of Michigan decide who will be their Governor for the next two years, also their county officers for the same length of time. Can you name any reason why your thought on who these officers will be should not be presented by ballot.

It is a known fact that usually only about 50 per cent of the eligible voters cast their ballots to name the officers who will act for them in Washington, Lansing or their own county seat. We believe that there isn't a reason which any one could give for not offering their opinion as to who shall take these offices.

Today is a good time to plan your day next Tuesday in order to allow yourself a few extra minutes to visit the polls and give your opinion who shall be the public servants for the next two years, both on a state and county level. As free men you should let your choice be known. Freedom must be worked for and one of the little chores that comes with the American type of freedom is voting.

There has been a tremendous effort in Michigan this year to get out the vote. Both political parties as well as many civic organizations have put a lot of effort forth in order to swell the percentage of eligible voters marking their ballots at the polls. You owe it to your country and to yourself to let your choice be known and it seems like a little enough effort for those of us at home to do to help uphold freedom when viewed alongside of the efforts of those who have been doing their share to save a free world, on the other side of the globe.

Want a ride that's "out of this world"?

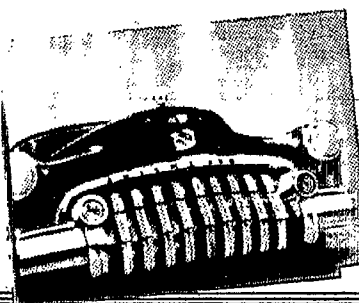

Better Buy Buick!

WANT to be free from that nervous tensing up for a jolt every time a rough spot looms in the road ahead?

Want to enjoy the relaxing feel of a sure-footed car beneath you, that stays level even when the road doesn't?

Well, sir, ease into a Buick and see how such matters are cared for.

See what a wonderful difference in level buoyancy coil springs can make when you have them on all four wheels, not just the front ones. Note what firm and solid steadiness is yours when a full-length torque-tube drive is your keel—how smoothly you stay on course when the rear wheels can't help but run true.

See what big, low-pressure tires and Buick's wide rims can do to pillow your course without jounce or sway.

In other words, sample this two-

ton beauty-for-over-all stance and balance—and the cradling comfort of its roomy interiors.

And while you're at it, get the very special thrill of its mighty Fireball power plant, plus the free-as-a-bird-in-flight bliss of its Dynaflo Drive.*

It's an experience that you owe yourself—and it's yours for the asking. The thing to do is get in touch with your Buick dealer—and discover the ride that only Buick owners know.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

FOUR-WAY FOREFRONT—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

**Strictly
Analytical**
By Richard Hill Wilkinson

THE TROUBLE with you," Barry said, "is that you're too analytical. Why don't you throw caution to the wind for once and marry the girl?"

Hugh sighed. His face took on that look of faintly aloof indulgence that he always conjured when Barry became critical. "You wouldn't understand," he said.

3-Minute Fiction

"You're too impulsive to see what I'm driving at. Let me tell you, it pays to be careful."

"Sure it does. But it doesn't pay to be overly careful. How does Valeria feel about it?"

"How does she feel? How do you think she feels? When a girl's in love she knows enough to be careful herself."

"Meaning, of course, that Val's mad about you and she's willing to wait until you get through analyzing and justifying or compensating her shortcomings in your mind."

Hugh gestured indifferently. "Figure it that way, if you like."

"Wouldn't it be a shock to you if you discovered yourself to be wrong. I mean, if Val married someone else right under your nose."

"She won't," said Hugh confidently. "Girls aren't made that way." He stood up. "I haven't been studying psychology and human behavior five years for nothing."

"But if she gets tired of waiting and marries some one else in the meantime, maybe you'll regret it."

"Don't be ridiculous. Val won't marry anyone else. I know what I'm doing."

Barry let a fortnight elapse before he again broached the subject of Val. It rankled him, and he felt better to get it off his chest. "Hate to mention it again, Hugh, but Val seems to think you've been neglecting her lately. Can't blame her much, either."

"Cut it!" Hugh looked ugly. "I think you'd better let me tend to my own affairs. Barry. The girl loves me and when I get around to it, I'll marry her. Goodness, can't you understand that a man shouldn't jump into such things!"

"Or a woman either," Barry offered. "I happen to know Val was out with someone else last night."

"Good. Comparing the someone else with me will be the best thing in the world for her—and me too."

"A girl in love knows enough to be careful herself."

Hugh was annoyed. Blast it, why couldn't Barry mind his own business? Why did he always have to keep worrying about Val. It was plain as day that he didn't under-

stand women. Val knew a good thing when she saw it. She loved him and was willing to wait. She was smart.

VAGUELY HE wondered who the other man could be she was out with. It was sort of amusing in a way. Probably Val had merely told Barry that so Barry would tell him. Childish. Why, even a first-year psychology student could tell you that was nothing but a feeble attempt on the part of the female to excite jealousy in the man she loved.

Three evenings later Hugh's phone rang. It was Barry. He sounded far away. "Can't hear you," Hugh yelled into the mouthpiece. "Talk louder."

"I say," came Barry's voice, more distinctly, "that the thing I warned you against has happened."

"What thing?" said Hugh.

"About Val. About her marrying someone else right under your nose. She's done it."

"I don't believe it," said Hugh, feeling for the first time a queer sensation of alarm.

"I saw it happen," said Barry. "I was there."

"Good lord!" Hugh was suddenly very much excited and very concerned.

"You can't say I didn't warn you," Barry's voice said, growing fainter.

"Hey! Hold on a minute, Barry! Are you there? Yes, yes, I know you warned me. Guess I was something of a fool. Who was it she married? This is terrible!"

"Me," said Barry, very faintly. And then the line went dead.

**Mass Blood Typing
Would Save Lives**

ANN ARBOR—Mass blood-typ-
ing of the general population
might save countless lives in the
event of an atomic disaster, ac-
cording to a University of Michigan
doctor.

Speed in obtaining the right
type of blood donors, the major
problem in such a crisis, would
result if every person knew their
own blood type, Dr. Otto Tod Mal-
lery, Jr., chief of the clinical lab-
oratories at the University Hos-
pital, declared.

Carrying out the simple proce-
dure in advance of a disaster would
enable blood-taking units to rapid-
ly collect a known type of blood
for a late treatment of the

most urgent casualties, he said.
Dr. Mallery pointed out that
since it is possible to give all cas-
ualties the same type of blood re-
gardless of their individual type,
the major problem during an
emergency, is to obtain donors
with this "universal" type without
having to test people who might
have some other types of blood.

He explained that there are
basically four blood types: O, A,
B, and AB, each containing either
a positive or negative "RH" fac-
tor. The type "O-RH negative"
can be given safely to individuals
who have any other type without
causing the undesirable reactions
that result when the other types
are mixed together, the doctor
said.

In the general population about

45 per cent of the people have
blood type "O", although only
approximately 15 per cent of these
people are "RH negative," Dr.
Mallery emphasized. For this re-
ason, since the urgent casualties
would all receive type O-RH nega-
tive, as soon as they could be
removed to a hospital area, they
would be given their own particu-
lar blood type to conserve the
critical O-RH negative blood, he
stated.

The quantities of blood needed
in a disaster are too great to be
supplied by the local community,
he claimed. For example, the doc-
tor pointed out that if a blast oc-
curred in a town of 60,000 inhab-
itants, it has been estimated that
there would be at least an immed-
iate demand for 45,000 pints of
blood, plus a demand for addi-
tional quantities of plasma, other
blood products or blood substi-
tutes.

**PROTECT YOURSELF
AND FAMILY!**

**1 PROTECT YOURSELF
Against Imitation Butter**

Your right to know—for sure—that there's BUTTER on the table—is
threatened by a move to tamper with Michigan's long-standing imi-
tation-BUTTER law. The present law is a GOOD law. It protects you—
your family—and the family table. Especially, it also protects you when
you "eat out."

Now, with a referendum vote on this subject on the ballot November
7, it's up to you. It's your job to protect yourself against imitation-BUTTER
—to make sure you get the real thing. Vote "NO" on Proposal 4, No-
vember 7th.

**2 PROTECT YOURSELF
Against High Milk Prices**

In case Michigan's present law—prohibiting substitutes colored yellow
in imitation of BUTTER—is rendered ineffective in the November gen-
eral election... thousands of Dairy Farmers will be driven out of business.
Milk will become scarcer... higher in price... as it has in other states
which now allow imitation-BUTTER to be sold colored yellow. It is no
accident that milk prices in cities in those states are 1½ cents a quart
higher than milk prices in states (including Michigan) which maintain
a protective law against selling imitation-BUTTER colored yellow*.
Keep Michigan milk plentiful—reasonable in price. Vote "NO" on
Proposal 4, November 7th.

**3 PROTECT YOUR OWN
and Michigan's Prosperity**

WARNING: The first year Canada allowed substitutes to be colored
yellow in imitation of BUTTER cost Dairy Farmers there 50 MILLION
DOLLARS. That can happen in Michigan... where 600,000 people de-
pend on Dairying for their livelihood... with an investment TWICE
THAT OF THE ENTIRE WORLD OPERATIONS OF THE FORD MOTOR
COMPANY! Reduce Michigan's income by many millions of dollars
and you depress the market for all kinds of Michigan goods... besides
irreparably damaging Michigan's soil and agriculture.

For your own sake... for your family's sake... for Michigan's sake...
VOTE "NO"—on Proposal 4—general election, November 7th!
